EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jason Z. Lin on October 26, 2004.

The application has been amended as follows:

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figures 1 and 2 should be labeled as "Prior Art". In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The applicant's invention deemed to be directed to a nonobvious improvement of the prior art (see applicant's admitted prior art fig. 2). Claim 1, lines 5-17, recites "a first parallel inductor, connected between the first junction point and the ground, a compensating inductor, connected between the first junction point and a second junction point, a second parallel inductor, connected between the second junction point and the ground... wherein the filter has a coupling coefficient determined by the inductances of the compensating inductor, the first parallel inductor, and the second parallel inductor."

Art Unit: 2817

This limitation is unobvious over the applicant's admitted prior art especially considering the specific locations for the first parallel inductor, a compensating inductor and a second parallel inductor in conjunction with a first resonant capacitor, a first serial inductor, a second serial inductor and a second resonator capacitor as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Seungsook Ham whose telephone number is (571) 272-2405. The examiner can normally be reached on Monday-Thursday, 8:00AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pascal can be reached on (571)-272-1769. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
